Assigned component: Prescription Review and Approval or Rejection

This component represents customer prescription submission and review by an authorized pharmacist. A prescription remains pending until it has been reviewed. Approval allows an eligible order to proceed, while rejection prevents the associated prescription dependent purchase from proceeding.

Class	Responsibility	Related use cases
User	Common account information and authentication operations	UC22
Customer	Customer profile, prescriptions and purchasing	UC01, UC06, UC13, UC14, UC15, UC21
Pharmacist	Prescription review and fulfillment	UC11, UC12, UC24
Prescription	Uploaded prescription information and review status	UC01, UC06, UC11, UC12, UC24
Order	Purchase information, payment eligibility and status	UC03, UC13, UC14, UC15
